

PERGO®

HYBRID ENGINEERED FLOORING
COLLECTION 2025

FLOORS FOR REAL LIFE

At Pergo we build strikingly beautiful, extremely hard-wearing floors. No shortcuts, no compromises, just the best in Scandinavian function, design and engineering. We invented laminate flooring and in fact, we've been innovating floors that have gone from strength to strength since the 1970's. Floors that are easy to install and maintain. And with one of the widest ranges around in wood, vinyl and hybrid flooring, you're sure to find the perfect one for you.

Come in and look around.

ODENSE L0363-06791 CLAY OAK

05

WHY PERGO HYBRID ENGINEERED FLOORS

Our hybrid floors are easy to clean, simple to install and built to last.

And come with a complete range of formats and styles to suit your home.

07

A SENSATION IN FLOORING

With the look and feel of natural beauty, you wouldn't believe it's not wood.

08

FLOORS FOR A LIFETIME

Our floors are crafted to endure – from the moment they're installed into your home, for a lifetime.

10

OUR COLLECTIONS

What's your style? From rustic to elegant, there's a Pergo hybrid floor to enhance your home.

44

ACCESSORIES

It is the little things that make big things happen. Complete the look and feel with Pergo accessories of your choice.

Every plank of a Pergo hybrid floor is covered with our patented TitanX™ that protects your floor from scratches and wear throughout its lifetime. So it will take a beating, even if you're playing with toys, moving furnitures or dancing around.

WHY PERGO HYBRID ENGINEERED FLOORS?

Pergo hybrid floors are built with Scandinavian aesthetics and simplicity for people who love to be active. Scratch resistant and able to withstand wear and tear, they are the perfect floors to play on with the kids, dance to the beat, or just chill in a yoga pose.

Our Pro hybrid floors are the perfect choice to life-proof your home. Use these floors on those high-traffic, hard wear areas like kitchens and hallways where there's lots of coming and going, playing or dropping things. It's that sense of beautiful, functional living you come to expect from Pergo. After all, we invented laminate flooring in the first place.

HIGH RESISTANCE TO SCRATCHES AND WEAR

Every plank is covered with our patented TitanX™ protection. This gives the floor high resistance to scratches and wear.

WATER RESISTANT* AND EASY TO CLEAN

All our hybrid floors have AquaSafe technology, which keeps your floor water resistant and simple to clean. The floors come with a wet warranty up to 15 years**.

NATURAL LOOK & FEEL

All our hybrid floors are incredibly true to nature in their design and structure. Additionally, the floor will maintain its color and will not fade over time.

EASY TO INSTALL

Just click into place with the glueless PerfectFold™ or Uniclic® click system.

PERFECT FINISH

From faultless installation, to seamless finishing and worry-free maintenance of your beautiful new floor. Choose from the wide range of accessories.

UP TO LIFETIME WARRANTY**

All Pergo hybrid floors come with an up to lifetime warranty, so that you can live life to the fullest, without worrying.

* Tested according to ISO 4760 (no leakage) and is not following EN13553 standards designed for welded resilient floor coverings.

** For full warranty conditions, go to pergo.com.

RESISTANT TO SCRATCHES & WEAR

TITANX™ – TOUGH PER DEFAULT

Every plank of a Pergo hybrid floor is covered with our patented TitanX™ technology, which means it has high resistance to wear and scratches.

This superior toplayer ensures those high traffic areas like kitchens, hallways and living rooms are well protected – and you can let kids do what they do. Be wild.

Read more about the build-up of a hybrid plank and our extra durable options, on page 56.

AQUASAFE

BECAUSE LIFE'S TOO SHORT
TO WORRY ABOUT WATER

All Pergo hybrid floors have AquaSafe, our in-house developed technology that creates a sealed, watertight* surface all the way down into the bevels, preventing water from penetrating the floor. It simply stands on the surface and you can easily wipe it away.

* Tested according to ISO 4760 (no leakage) and is not following EN13553 standards designed for welded resilient floor coverings.

NATURAL ON A WHOLE OTHER LEVEL

SENSATION FLOORS - SEE AND FEEL THE DIFFERENCE

With Pergo Sensation hybrid engineered floors, you won't believe it's not real wood. It offers the look of nature with authentic shades and grains, combined with a deep tactile structure and a warm, matte finish.

- Deeper, more authentic structure
- Refined bevels with extra natural look
- Matte finish for a premium feel

Deep, authentic, and tactile structure, finished with a matte surface.

The wood pattern on the floor extends into the bevels, creating a smooth, harmonious look.

HOPEFULLY, WE WON'T SEE YOU AGAIN FOR A LIFETIME

It's not that we don't love or appreciate you, as we very much do. It's just that for greater sustainability, we all need to buy less and demand more of the products we use. Our floors are crafted to endure – from the moment they're installed into your home, for a lifetime.

BUY FOR A LIFETIME

We are so confident in the durability of our floors that they come with a lifetime warranty*. Which is good for both you and the environment.

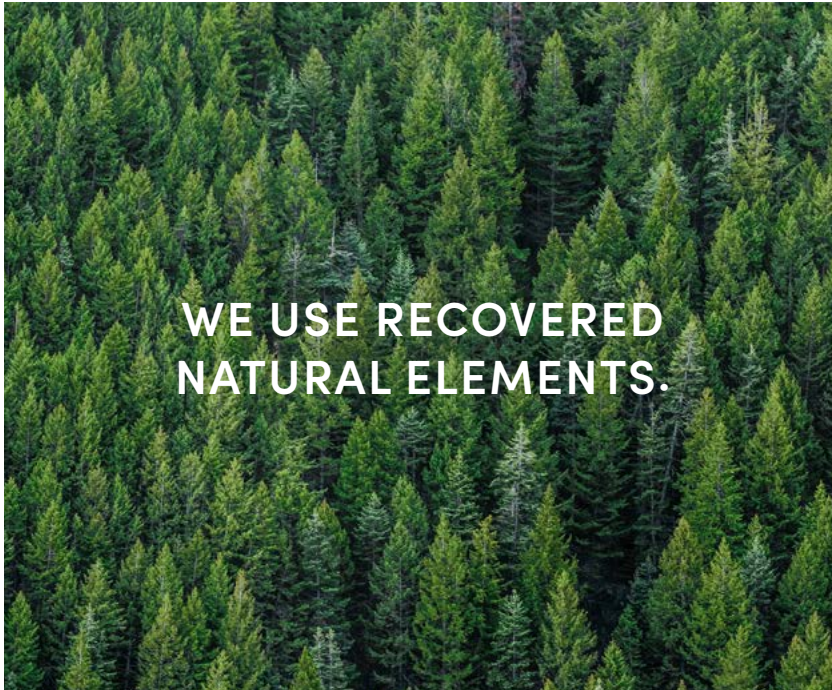

CHOOSE ECO-CERTIFIED

All our hybrid floors are certified with the prestigious EU EcoLabel and Nordic Swan Ecolabel. Actually, we were the first ever to be awarded the latter for a floor – all the way back in 1995.

JOIN OUR LOVE OF CARBON REDUCTION

We make the core of our hybrid floor out of recovered wood.

WE USE RECOVERED NATURAL ELEMENTS.

WE USE RECOVERED NATURAL ELEMENTS

The HDF (High Density Fibreboard) in your breathtakingly beautiful Pergo hybrid floors are made from recovered wood. A product we get from sawmills, roadside maintenance, and similar sources. What would otherwise just be thrown away or incinerated. Which we find kind of ... not good. So, we use it, and you're walking on it.

TOUGH FLOORS FOR ROUGH PLAY

Pergo hybrid floors are designed for a lifetime of use – and are literally ready for whatever life, or the kids, throws at them. We make our floors tough and hardwearing for two reasons. First, we don't want you to have to worry about your floor keeping up with you and your family. Secondly, products with an extended lifespan have a reduced impact on our planet's resources.

LIFETIME WARRANTY*

As if the incredible durability of a Pergo floor wouldn't be enough – each floor also comes with a lifetime warranty. Yes, that's quite amazing. We want you to rest assured that your Pergo floor will stand by you, no matter what life brings. While also reducing our environmental footprint, as the floor's lifespan extends way beyond the ordinary. Directly contributing to less consumption paving the way to a more sustainable future.

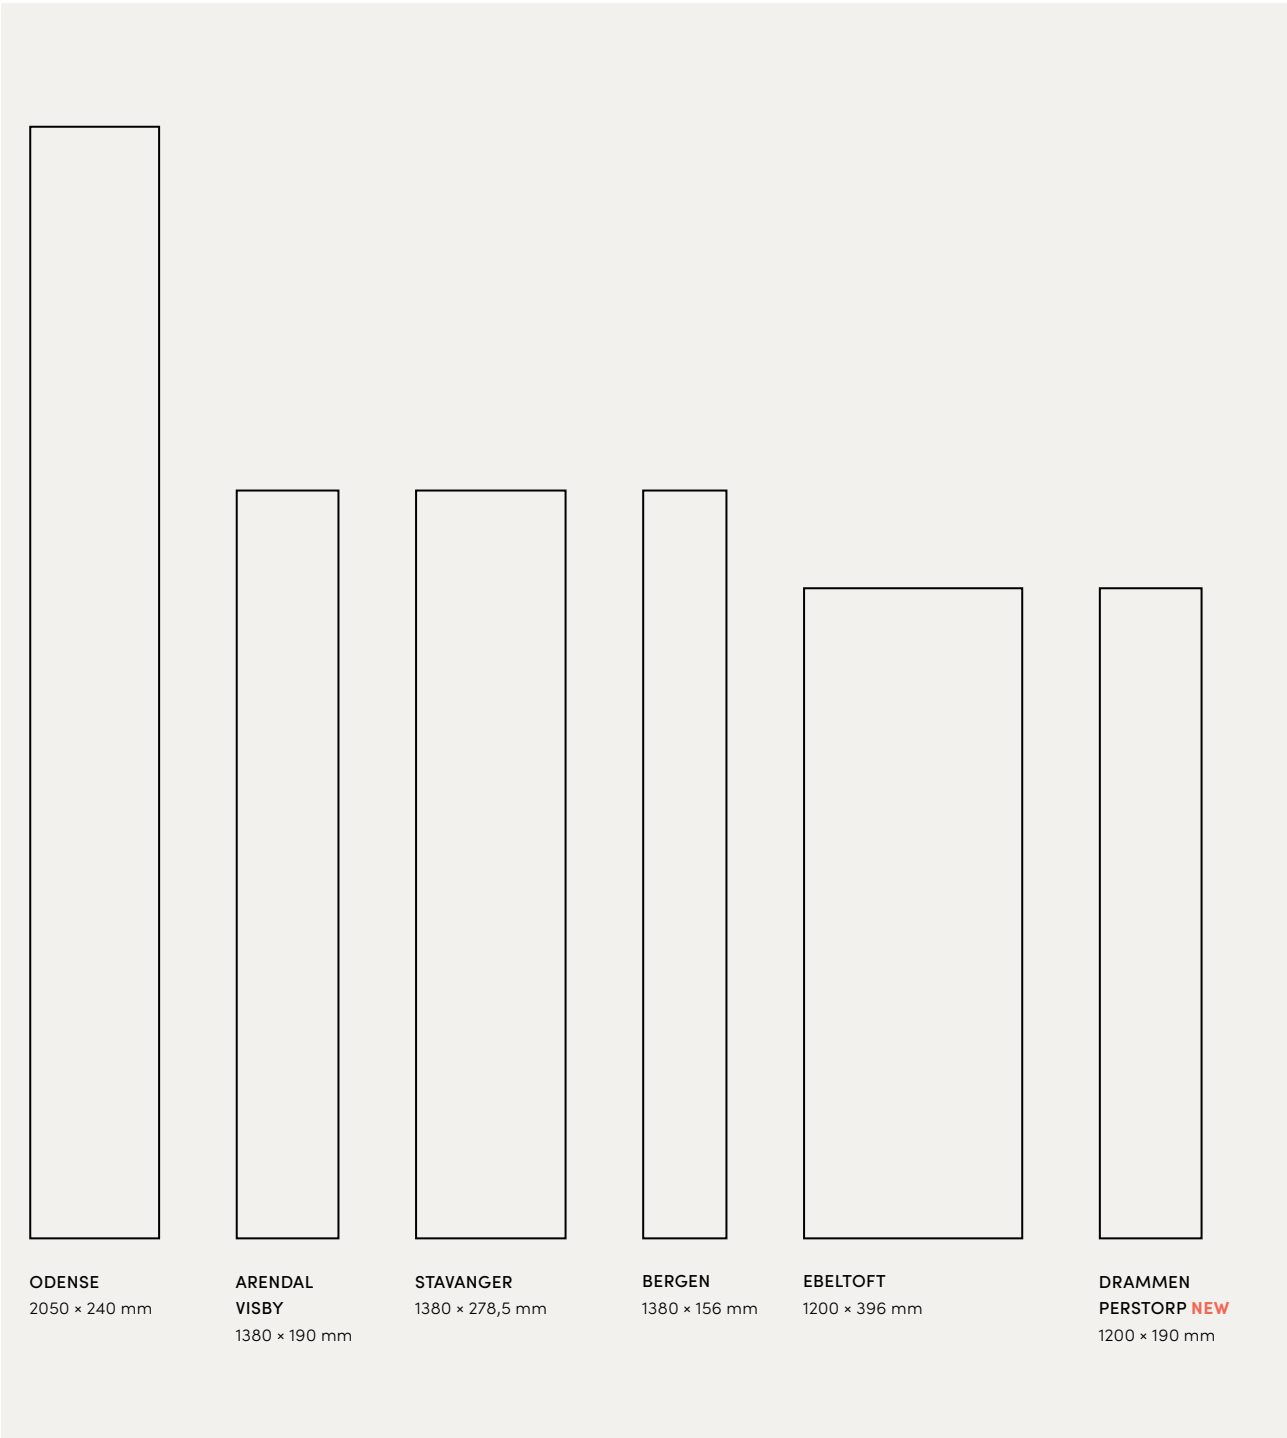

*Local exceptions may apply.

OUR COLLECTIONS

Scandinavian never goes out of style. The same goes for functional design. Our complete range of Pergo hybrid engineered floor delivers just that. Whether you want the high-quality feel of Odense's long planks, the natural look of Arendal or the minimalistic infinite look of Perstorp, there's a floor to fill your every need.

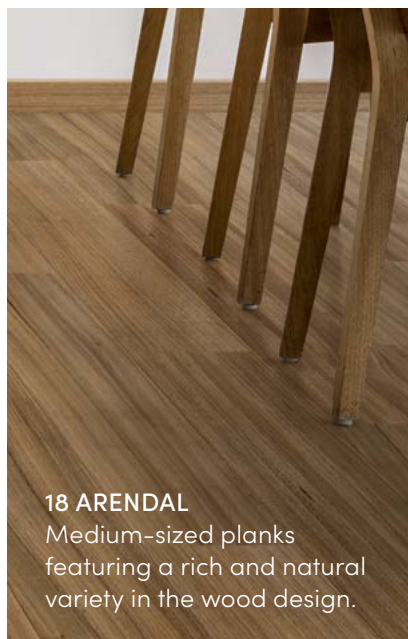

And all of them are designed to be durable and have a completely watertight surface. These are the reasons why Pergo hybrid floors have become true representatives of Scandinavian functional design. So your kitchen, hallway, bedroom or living room is a pleasure to come home to. Always.

12 ODENSE

Long, wide planks with deep realistic textures and a rich natural variety in the wood design.

18 ARENDAL

Medium-sized planks featuring a rich and natural variety in the wood design.

22 VISBY

Medium-sized planks with authentic finish.

26 STAVANGER

Extra wide planks with rustic designs for an impressive look.

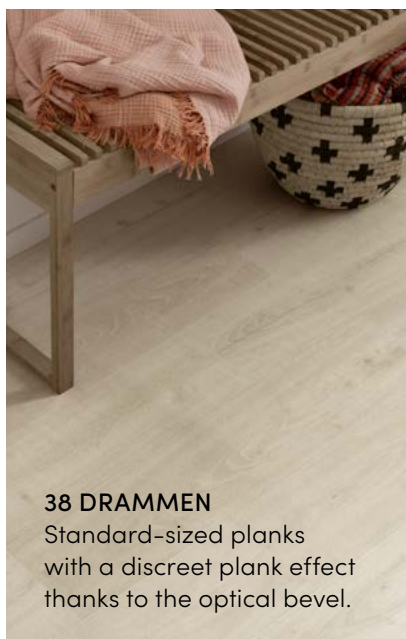

30 BERGEN

Slim planks with a timeless design that bring elegance to the room.

34 EBELTOFT

Modern, high-end hybrid floor with a 4-way bevel.

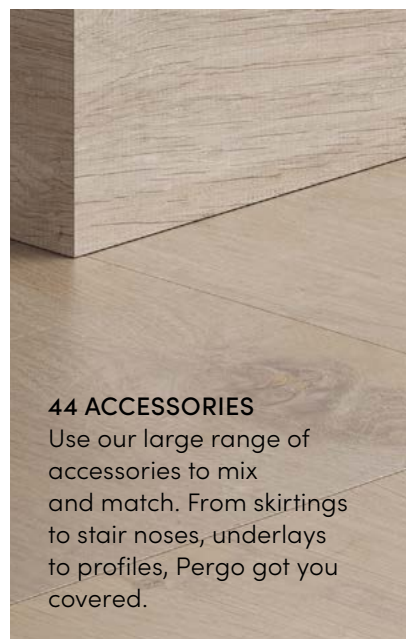

38 DRAMMEN

Standard-sized planks with a discreet plank effect thanks to the optical bevel.

40 PERSTORP

Standard-sized planks without bevel, for an endless effect.

44 ACCESSORIES

Use our large range of accessories to mix and match. From skirtings to stair noses, underlays to profiles, Pergo got you covered.

*NATURE'S ENDLESS
VARIATIONS WITH EXTRA
LONG, WIDE PLANKS*

ODENSE

The inspiration for our Odense hybrid collection is drawn from the stunning hills of the Danish island of Fyn, where nature offers a rich diversity and resilient characteristics. The collection creates a harmonious blend of timeless elegance and more rustic and contemporary styles.

Want that premium look you get from extra-long, extra-wide planks? Odense helps you create a vibrant and natural looking space, giving larger rooms a sense of grandeur whilst giving smaller spaces a sense of calmness. The Odense range looks and feels genuinely authentic and varied. Like nature itself

ODENSE L0363-06792 OATMEAL OAK
SKIRTING SFPSKCLICKPAINT126

DESIGN MEETS DURABILITY

Like all Pergo floors, Odense is extremely durable, covered with both TitanX™ protection and AquaSafe technology so it looks its best for years to come.

©DENSE L0363-06798 FOLK

The Folk design was created by hand and implemented with today's advanced techniques, making this decor a true representative of modern craftsmanship.

FOLK - A FLOOR WITH A SCANDINAVIAN STORY

Our Folk design takes inspiration from old Scandinavian folk art, by giving the traditional farmhouse style a contemporary twist. This decor is something different, a genuine eye-catcher, mixing old and new, traditional and modern, in a truly unique way. It creates a bold statement with its slightly worn look and makes for a perfect match in any room that desires that little extra focal point.

For the creative minded, it's possible to mix Folk with the Vibrant Oak design. This gives an even more unique yet coherent look in your home, as the two designs have a colour matched base.

NEW PERSTORP

1200 × 190 × 8 MM | NO BEVEL | 1,596 M²/PACK

Perstorp with its standard-sized planks without bevel creates a seamless, continuous effect in your room. The classic size makes the floor versatile to rooms of any size.

The designs of Perstorp have been strongly influenced by the Scandinavian heritage of Pergo, with soothing, clean oak patterns. The collection is named after the small village in Sweden where Pergo once invented laminate flooring.

The protective TitanX™ top layer gives the floor high resistance to scratches and wear and thanks to AquaSafe the floor is water resistant and worry-free.

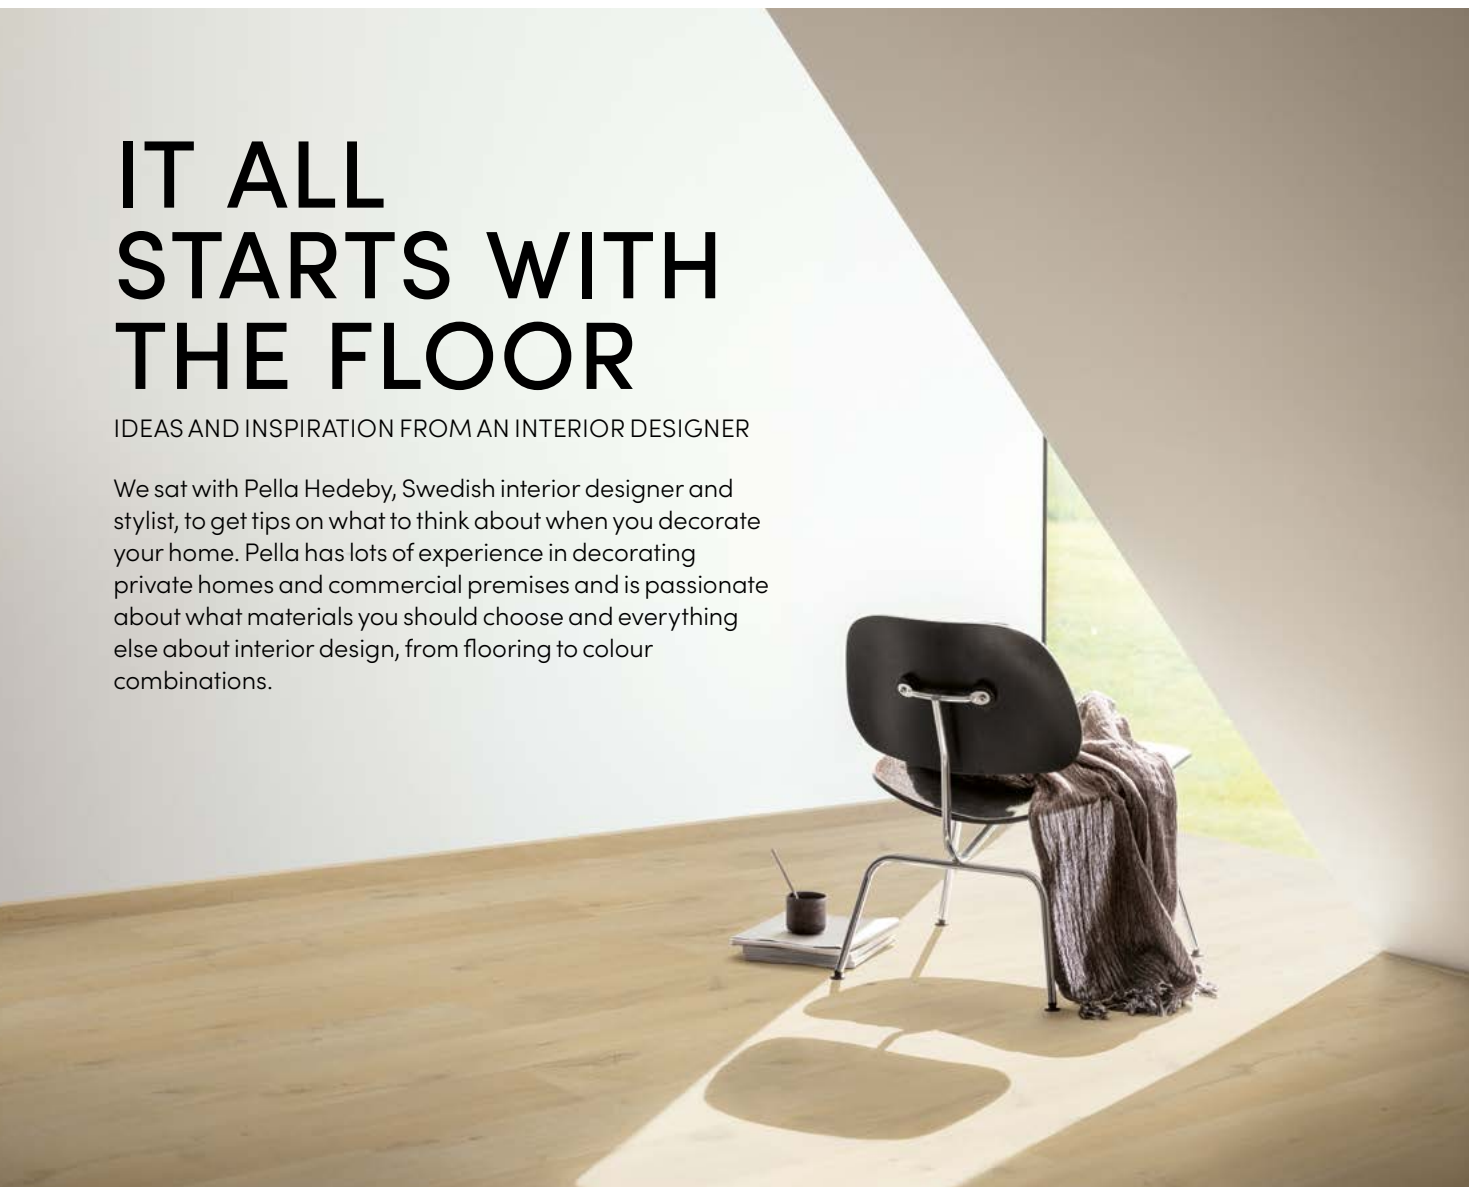

* For more info about the bevels, see page 56

IT ALL STARTS WITH THE FLOOR

IDEAS AND INSPIRATION FROM AN INTERIOR DESIGNER

We sat with Pella Hedeby, Swedish interior designer and stylist, to get tips on what to think about when you decorate your home. Pella has lots of experience in decorating private homes and commercial premises and is passionate about what materials you should choose and everything else about interior design, from flooring to colour combinations.

What are the main things you should think about, when decorating your home?

The bases are everything. If you have well-thought-out material choices that follow a common theme through your home, then you have a great base for the way you furnish. "Less is more" may be a bit of a tired expression, but it's so true. Put lots of thought into what you add. Often it doesn't take much to create that homely feeling. Less "things" make it easier to keep your house tidy and enjoy what you have.

What are the future trends of colours and colour combinations?

I have a restrained approach to trends. Whether it's colours, materials or things. Sure, I can be inspired by something new, but I always ask myself, "Is it something I could live with over time? Did I like this 10 years ago and will I like it after 10-20 years?"

Having said that we see more colour and playfulness in many places today. Together with a minimalist, stripped-down, toned-down expression. It's important to remember that we are all different. Some people constantly need

new impressions and a lot of pulse to get energy. I belong to the group that takes in the smallest shade, filled with a streak of light, a scent and feeling in a texture. So I need to scale back and minimize things to experience balance and harmony.

In my world, materials and textures set the tone and feeling in a room. Then you can work with the smaller details.

Tone-in-tone or mixing your favourites. Like when you put together a bouquet of flowers, layering shapes and colours.

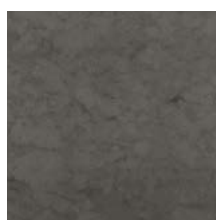

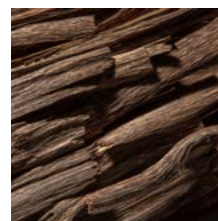

What things about flooring should you think about if you want to give a room extra space?

Lighter shades give you a more airy feeling. It's the same when you add colour to other surfaces. It reflects light and gives you that feeling of space.

"CHOOSE A FLOOR THAT LASTS OVER TIME"

Any rules about combining colour on floors and walls?

When decorating a new home, or renovating from scratch, my tip is to always start with the floor. You lay a floor so it lasts a long time, slightly more long-lasting than the colour

of the walls. The floor forms a large part of the interior and the feeling in the room. The sense of style is set with the floor and the choice of skirtings should be in harmony with the architecture. A great way to put it all together is to create a mood board with samples of materials, colours and inspirational images.

Should flooring in different rooms have to match each other, or should I see each room as unique?

I think it's nice to think holistically and let one material be the base everywhere. But different rooms naturally have different functional requirements. So I would say that it's increasingly common to mix different types of floors based on function and focusing on sustainability.

What's the biggest mistake people make when choosing a new floor?

Many people start with colours and other materials and interior details, leaving the floor as a compromise. I suggest you turn that upside down. The main thing is to choose a floor that

lasts over time. It's costly and time consuming to replace a floor, so choose what is the base of your home carefully.

Any thoughts regarding mixing different types of wood on floors and furniture?

Instead of mixing different types of wood flooring, I'd mix and match different types of wood on floors with other furnishings. For example, it's nice to mix furniture and interior details with a vintage patina that contrast with the choice of materials. I think natural material choices are always welcome elements that add a genuine feeling to any home. If there is a "rule", it's better that it's a complete, natural contrast than something that melts together – but doesn't really. Here you can balance the feeling that if a floor takes loads of space, you can add something to balance it. Like adding a rug and then furnishing with wooden furniture. Or working with wood in smaller details, a hook strip, a wooden bowl or the frames around, art on the wall...

PELLA HEDEBY
INTERIOR DESIGNER

YOUR FLOOR – FINISHED IN STYLE

Choose from our wide range of accessories to give your interior that perfectly finished look and feel. From seamless transitions to stairs or walls, silent underlays to improve your comfort or a skirting that finishes off the room in style. Details make perfection.

UNDERLAYS

Make a great floor greater. Underlays increase walking comfort, improve your room's acoustics, avoid creaking noises, support the click system and protect floors from rising moisture. They can be combined with underfloor heating or cooling too.

SKIRTINGS

Finish the look with colour matching skirtings, or complete your interior style with one of the many paintable white shapes.

PROFILES

Hide those saw cuts and give your floor room to expand with profiles. Create a smooth transition with the colour matched Incizo® profile.

ALL YOU NEED TO INSTALL, FINISH AND MAINTAIN YOUR FLOOR

A hybrid floor is more than the planks you walk on. It's a complete home decor solution. That's why Pergo also offers a full line of accessories. Everything you need for trouble-free installation, finishing and maintenance.

1. UNDERLAYS

Enjoy walking on quiet floors without creaks? Choosing the right underlay can improve your living comfort significantly.

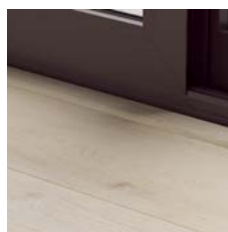

2. SKIRTINGS

Give your interior that stylish impression with skirtings that have the same look as the floor. You can also go for the white and paintable skirtings to match the colour of the wall.

3. EXPANSION PROFILES

Floors in connecting rooms melt together thanks to a colour matched expansion profile. Read about our Incizo® 5-in-1 solution on page 54.

4. ADAPTER & END PROFILES

An elegant way to make a transition when hybrid floors meet other surfaces. Use an end profile between hybrid floors and windows and an adapter profile between hybrid floor and lower floor surfaces. Available in our Incizo® 5-in-1 solution.

5. STAIR NOSES

Pergo's flooring is an excellent choice for staircases. Stair noses provide an elegant finish to each step. Various stair finishes are possible. Available in our Incizo® 5-in-1 solution.

UNDERLAYS

CHOOSE THE UNDERLAY THAT'S RIGHT FOR YOU.

1. Decide where you want to install the underlay. Our underlays give you excellent sound insulation. Walking sound reduction shows you how much sound is reduced in the room. Impact sound reduction indicates how much sound is reduced to the rooms below.
2. Check your subfloor: is it wood or concrete?
3. Take a knife to cut the rolls and use our Pergo tape (NETAPE50) to connect them.

DRAMMEN L0348-05015 WHITE GLOOM OAK

FOAM UNDERLAY
WOOD SUBFLOORS

Qualitative and budget-friendly underlay for rooms where there is less traffic. Compatible with underfloor heating. Foam underlay can be used in buildings certified with the Nordic Swan mark. Thickness 2 mm. 15 m²/roll

SILENT WALK UNDERLAY**
WOOD AND CONCRETE SUBFLOORS.

A strong, durable underlay that's perfect for rooms with heavy traffic such as your living room, hallway or kitchen. It offers optimal sound reduction and the highest efficiency for underfloor heating and cooling systems. It comes with an integrated vapour barrier to protect your floor against rising damp. Silent Walk is composed of renewable raw materials, such as plant-based oils and natural occurring fillers. Thickness 2 mm. 7 m²/roll.

NEW - CLICKABLE SKIRTINGS

Our new invention of clickable skirtings is made with a mission, to make installing smoother and the finish seamless.

EASY TO INSTALL

Thanks to our internally developed Uniclic® system skirting installation has never been easier and quicker. No tools needed, just click and go.

SEAMLESS FINISH

The ingenious design ensures the joints of your skirtings will meet seamlessly without any unsightly gaps.

MANY CHOICES

The skirtings come in a variety of lengths and heights to fit all needs.

WATER RESISTANCE MADE EASY

Installing a water resistant floor is really easy. Follow the steps below and get your hybrid engineered floor ready for splashes, damp and the kids' indoor water games.

THREE STEPS TO GIVE YOUR FLOOR A WATERTIGHT FINISH

1. FOAMSTRIP

20 × 1 m × Ø 10 mm

An elastic filler for gaps around the floor perimeter.

NEFOAMSTRIP20

2. AQUA SEALANT

310 ml

Transparent silicone to combine with the Foamstrip for a watertight finish of your floor. One tube seals 15 m.

PGKITTRANSP

3. HYDROSTRIP

15 m

Transparent strip for a watertight finish of your skirting.

NEHSTRIPSK15 (for standard skirtings)

NEHSTRIPSCOTPSK15 (for scotia & parquet skirtings)

5 PERFECT FINISHES IN 1 SINGLE PRODUCT

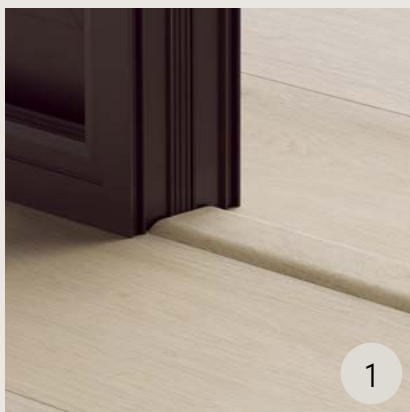

Made from wear and scratch resistant hybrid engineered floors, Incizo®-patented profiles make the perfect match for your floor. An all-in-one solution that provides a seamless result.

Simply cut the profile to the shape you need with the included knife. Suitable for flooring heights 7 – 10 mm.

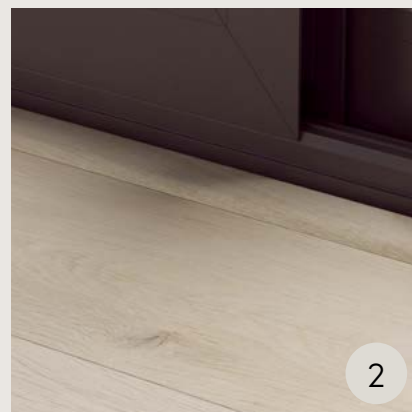

THE INCIZO® PROFILE

SUPERIOR DURABILITY
For all-round medium use.
Lifetime warranty*.

PRO: OUTSTANDING DURABILITY
For areas with heavy use.
Lifetime warranty.

* Local exceptions may apply. For more info, visit pergo.com

DO YOU PREFER A FLOOR WITH OR WITHOUT BEVELS?

PREMIUM BEVEL

The bevel of the Pergo Sensation hybrid floors is our highest-quality bevel, enhancing both the appearance and functionality of the floor, unlike anything you have seen before.

The wood pattern extends down into the bevel, creating a seamless, natural look. The bevel also features a superior coating, providing excellent water resistance.

OPTICAL BEVEL

The floor collections with an optical bevel (Drammen) create the illusion of a small bevel, an effect that appears either distinct or subtle depending on the viewing angle.

NO BEVEL

The floor collections without a bevel (Perstorp, Espoo) provide a smooth, continuous surface that is easy to clean.

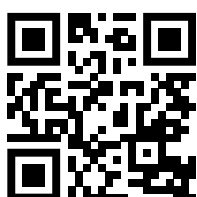

THE PERFECT RESULT IS JUST A CLICK AWAY
